## EXTENSION CORDS

- Comes with a single male plug and a single female outlet
- 16/3 gauge SJTW cold weather-rated cord
- OSHA NRTL Compliant

**Bayco 25' Single-Tap 16/3 Extension Cord**  
BAY SL-725

**Bayco 50' Single-Tap 16/3 Extension Cord**  
BAY SL-750

**Bayco 100' Single-Tap 16/3 Extension Cord with Lighted End** BAY SL-751

- Comes with a single male plug and a 3 outlet female end
- Outlet end lights up when power is applied
- 14/3 gauge SJTW cold weather-rated cord
- OSHA NRTL Compliant

**Bayco 25' Triple-Tap 14/3 Pro Extension Cord with Lighted End** BAY SL-740L

**Bayco 50' Triple-Tap 14/3 Pro Extension Cord with Lighted End** BAY SL-741L

**Bayco 100' Triple-Tap 14/3 Pro Extension Cord with Lighted End** BAY SL-745L

- Cold weather-rated extension cord comes with a single male plug and a single female outlet
- The outlet lights up when power is applied
- Cord jacket has increased resistance to oil and water
- 14/3 gauge SJEOW cord rated
- OSHA NRTL Compliant

**Bayco 25' Single-Tap 14/3 All Season Pro Extension Cord with Lighted End** BAY SL-993

**Bayco 50' Single-Tap 14/3 All Season Pro Extension Cord with Lighted End** BAY SL-994

**Bayco 100' Single-Tap 14/3 All Season Pro Extension Cord with Lighted End** BAY SL-995

- The cold weather-rated extension cord comes with a single male plug and a 3 outlet female end
- The outlet lights up when power is applied
- Cord jacket has increased resistance to oil and water
- 12/3 gauge SJEOW
- OSHA NRTL Compliant

**Bayco 25' Cord Triple-Tap 12/3 Lighted Ends SJEOW** BAY SL-9104

**Bayco 50' Cord Triple-Tap 12/3 Lighted Ends SJEOW** BAY SL-9106

**Bayco 100' Cord Triple-Tap 12/3 Lighted Ends SJEOW** BAY SL-9108

- This Retractable Cord Reel has a 30' 14/3 SJT Cord.
- With 3 separate grounded outlets and a 13 amp rating, powering your projects is quick and easy.
- The outlet bar even has a built in LED status light to let you know you have power.
- Includes mounting brackets that allow it to be attached to the wall or ceiling.

**Bayco Triple-Tap Extension Cord - 30' 14/3 on Metal Retractable Reel** BAY SL-801

- This Retractable Cord Reel has a 50' 14/3 SJTW Cord.
- With 3 separate grounded outlets and a 13 amp resettable circuit breaker, powering your projects is quick and easy.

## LIGHTING

- This non-rechargeable Mini-TAC light use a CREE LED and has a deep parabolic reflector creating a tight, long throw beam for distance illumination.
- With a water resistant design, it is constructed from aircraft-grade 6061-T6 aluminum with a Type II hard anodized finish.
- The tail switch provides momentary or constant-on functionality.
- The light comes with a removable pocket clip and a removable wrist lanyard.
- The MT-120 is powered by two included AA batteries.

**Bayco Aluminum Non-Rechargeable Mini-TAC Flashlight - Black - 2 AA Batteries** BAY MT-120

- This non-rechargeable Mini-TAC light use a CREE LED and has a deep parabolic reflector creating a tight, long throw beam for distance illumination.
- With a water resistant design, it is constructed from aircraft-grade 6061-T6 aluminum with a Type II hard anodized finish.
- The tail switch provides momentary or constant-on functionality.
- The light comes with a removable pocket clip.
- The MT-100 is powered by two included AAA batteries.

**Bayco Aluminum Non-Rechargeable Mini-TAC Flashlight - Black - 2 AAA Batteries** BAY MT-100

- This rechargeable all LED Work Light has both a spotlight and a floodlight built in.
- The spotlight, located in the base of the handle, is rated at 32 Lumens.
- It's perfect for putting a narrow beam of light into a specific area. The floodlight, rated at 230 Lumens, is designed for lighting up a large area.
- The idea is simple, use the spotlight to find the problem, and the floodlight to light up the area when fixing the problem.
- The work light has two magnets built in...one at the balance point in the middle of the handle, and the other at the tip of the light. The flat-bottom design of the handle means the light will stand up on most flat surfaces, and the octagonal shape to the handle keeps the floodlight aimed in the correct direction when you lay the light on its side. Further adding to the work light's hands-free features is the detachable magnetic hook. It can be attached to either integrated body magnet and rotated 360 degrees. The integrated Nickel Metal Hydride battery can be recharged with the included AC or DC power supply/charger.

**Bayco Dual-Function 66 LED Rechargeable Work Light Spot Light with Magnetic Hook** BAY SLR-2166

\* Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.

- This dual-switch rechargeable Multi-Purpose Dual-LightWork Light is one of the most versatile lights available. It is actually two lights in one...a spotlight and a floodlight.
- Rated at 200 lumens, the spotlight beam on this light puts a beam of light exactly where you need it. This unique work light also has a non-focused 170 lumens floodlight built into the handle. Because the floodlight does not have a reflector, the light spreads out in a wide even pattern of light expressly for the purpose of lighting up areas that are close by.
- Now you have two completely different patterns of light for whatever work needs to be done...a spotlight for locating the problem, and a floodlight for lighting up the area while the problem is being fixed. You can even turn both lights on at the same time for even more lighting options.
- The ergonomic shape of the handle makes it easy to hold, and the flat-bottom design means it will stand up on virtually any flat surface. For additional hands-free options, the work light includes a Hook/Prop Stand. It can be used to hang the work light up, and because it can rotate 360 degrees around the body of the light, the light can be pointed to exactly where it's needed. When the light is laid on its side, the hook can act as a "prop" stand, once again allowing the floodlight to be pointed where it will do the best job.
- Powered by an integrated Nickel Metal Hydride battery, the spotlight will run for 3 hours, the floodlight for 2.5 and when both lights are on, you'll get 1.5 hours of run-time. This work light includes both an AC and a DC charger/power supply.

**Bayco 3-in-1 LED Task Light with Adjustable Hanger - Rechargeable - Red** BAY NSR-2492

- This LED Work Light Reel is an all LED Work Light attached to a Heavy Duty Metal Reel with 50' of retractable 18/2 SVT cord.
- The work light is lightweight and virtually indestructible, thanks to its all LED design. It provides excellent area illumination and will handle just about anything you can throw at it.
- The floodlight, rated at 120 Lumens, is designed for lighting up a large area. The work light has two magnets built in...one at the balance point in the middle of the handle, and the other at the tip of the light, perfect for attaching the light wherever it's needed.
- The octagonal shape to the handle keeps the floodlight aimed in the correct direction when you lay the light on its side. Further adding to the work light's hands-free features is the detachable magnetic hook. It can be attached to either integrated body magnet and rotated 360 degrees.
- Includes mounting brackets that allow it to be attached to the wall or ceiling.

**Bayco 60 LED Worklight with 50ft 18/2 cord reel** BAY SL-864

- This corded all LED Work Light is quite possibly the perfect work area light.
- Lightweight and virtually indestructible, thanks to its all LED design, this work light provides excellent area illumination and will handle just about anything you can throw at it.
- The floodlight, rated at 120 Lumens, is designed for lighting up a large area. The work light has two magnets built in...one at the balance point in the middle of the handle, and the other at the tip of the light, perfect for attaching the light wherever it's needed.
- The octagonal shape to the handle keeps the floodlight aimed in the correct direction when you lay the light on its side. Further adding to the work light's hands-free features is the detachable magnetic hook. It can be attached to either integrated body magnet and rotated 360 degrees.
- The light has a 25 foot 18/2 SJT cord.

**Bayco 60 LED Worklight with 25ft 18/2** BAY SL-2125

- This fluorescent work light uses two 13 watt fluorescent bulbs, each rated at 10,000 hours of use.
- The dual body rocker switch means that either bulb can be turned on independent of the other, or both at the same time, for a total of 26 watts of light. With both bulbs turned on, the amount of light produced is similar to that of a 125 watt incandescent bulb, but with a daylight color to it. The electronic ballast provides instant, no-flicker cold weather starts.
- The handle has a natural ergonomic shape making it easy to hold and use. Built into the handle is a single 12 amp grounded Single Outlet making it possible to power another tool or device directly from the handle. The cord uses an exclusive 90 degree swivel design making it possible to set the light down for hands-free operations.
- For additional hands-free use, this product has a retractable and removable nylon-tipped double hook located at the top of the light that can rotate 360 degrees.
- This unit has a 25 foot 16/3 SJT cord.

**Bayco 26 Watt Pro Series Fluorescent Work Light - 25' 16/3 with Tap, Ergonomic Handle & Swivel Cord** BAY SL-976

- This fluorescent work light uses a single 13 watt fluorescent bulb rated at 10,000 hours of use. The amount of light produced is similar to that of a 75 watt incandescent bulb but with a daylight color to it.
- The handle has a natural ergonomic shape making it easy to hold and use.
- Built into the handle is a single 12 amp grounded Single Outlet making it possible to power another tool or device directly from the handle.
- The electronic ballast provides instant, no-flicker cold weather starts. The cord uses an exclusive 90 degree swivel design making it possible to set the light down for hands-free operations. Further aiding in the hands-free use of this product, are the nylon tipped double hooks.
- This unit utilizes a rocker style switch and has a 25 foot 16/3 SJT cord.

**Bayco 13 Watt Pro Fluorescent Work Light - 25' 16/3 Flashlight End with Tap** BAY SL-935

- This fluorescent work light uses a single 13 watt fluorescent bulb rated at 10,000 hours of use. The amount of light produced is similar to that of a 75 watt incandescent bulb but with a daylight color to it.
- The electronic ballast provides instant, no-flicker cold weather starts. The handle has an angled ergonomic shape making it easy to hold and use.
- Built into the handle is a single 12 amp grounded Single Outlet making it possible to power another tool or device directly from the handle.
- For hands-free use, this product has dual swivel hooks...one mount at the top and the other low down on the body.
- This unit has a rocker style switch and has a 25 foot 16/3 SJT cord.

**Bayco 13 Watt Angle Fluorescent Work Light - 25' 16/3 with Tap** BAY SL-964

- This fluorescent work light uses a single 13 watt fluorescent bulb rated at 10,000 hours of use. The amount of light produced is similar to that of a 75 watt incandescent bulb but with a daylight color to it.
- The electronic ballast provides instant, no-flicker cold weather starts. The handle has a natural ergonomic shape making it easy to hold and use.
- The cord uses an exclusive 90 degree swivel design making it possible to set the light down for hands-free operations.
- Further aiding in the hands-free use of this product, are the nylon tipped double hooks.
- This unit utilizes a rocker style switch and has a 25 foot 18/2 SJT cord.

**Bayco 13 Watt Standard Fluorescent Work Light - 25' 18/2 SJT** BAY SL-520
