**ADHESIVES**

**EPOXY**

- J-B Kwik is designed to be an alternative to welding, soldering and brazing.
- It sets in a little as 4 minutes and fully cures in 4 to 6 hours.
- J-B Kwik is waterproof and resistant to petroleum, chemicals and acid.
- It can be drilled, machined, painted, sanded and filed once it’s cured. J-B Weld is superstrong, nontoxic and temperature resistant up to 300°F.

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.*

**JB Weld Kwik Cold Weld Epoxy (2 oz.) JB 8276**

- J-B Original is designed to be an alternative to welding, soldering and brazing.
- This epoxy bonds to most clean surfaces, and it will set in 4 to 6 hours and fully cure in 24 hours.
- J-B Weld Epoxy is waterproof, resistant to petroleum, chemicals and acid, and can be drilled, machined, painted, sanded and filed once cured.
- It’s super-strong, nontoxic and temperature resistant up to 600°F.

**JB Weld Original Coldweld Epoxy, (2) 1 oz. Tubes JB 8265S**

- This versatile, easy-to-use, general-purpose epoxy adhesive is 2-part adhesive and filler system that helps eliminate the need for welding or brazing.
- Formulated to set in 5 minutes without requiring clamping.
- Clear appearance.
- Fills gaps and will not shrink.
- Resistant to water and solvents. Permanent strength up to 3400 PSI.

**Permatex PermaPoxy 5-Minute General-Purpose Epoxy (0.84 oz.) PER 84101**

- A structural adhesive designed for general purpose bonding of a wide variety of materials.
- Forms a tough, durable bond to most plastics, composites, ceramics and wood in any combination.
- Fast-curing product with gelling of mixed adhesive in 5 - 6 minutes and fixturing in 9 - 10 minutes.
- Will not bond most polyethylene or polypropylene plastics.
- Bonds hard and soft plastics to specified surfaces. Requires no primers and sets in 5 minutes at room temperature. Cream appearance. Gap filling to 0.125”. Water resistant and good chemical resistance. Permanent strength up to 3500 PSI.

**Permatex PermaPoxy 5 Minute Plastic Weld (0.84 oz.) PER 84115**

- Versatile, easy-to-use, multi-metal epoxy adhesive is two-part adhesive and filler system that’s designed to eliminate the need for welding or brazing.
- Sets in as little as 4 minutes without requiring clamping.
- Dark grey appearance.
- Fills gaps and will not shrink.
- When cured, can be drilled, sanded, threaded or filed. Resistant to water and solvents. Temperature range -60°F to 300°F (-51°C to 149°C). Permanent strength up to 4500 PSI.

**Permatex PermaPoxy 4-Minute Multi-Metal Epoxy (0.84 oz.) PER 84109**

- J-B Stik is a hand-kneadable, steel-reinforced epoxy putty that is designed to plug holes and make permanent repairs on most wet and dry surfaces.
- It fully cures in as little as 30 minutes and requires no prep time or tools.
- It will even make repairs in gasoline.

**JB Weld Stik Epoxy Putty (2 oz.) JB 8267-S**

- A two-part adhesive epoxy filler
- Cures in 1 hr
- Dries off-white

**JB Weld Plasticweld Quick Setting Epoxy JB 50132**

- Waterproof!
- Great epoxy for boat and PWC repairs
- Set: 20 min
- Full cure: overnight

**JB Weld Marine Weld JB 50112**

- For repairs around home, hobbies, plumbing, automobiles, marine and farm
- Resists temperatures up to 500°F (260°C)
- Virtually impervious to chemicals
- Sets in 5 minutes, fully cures in 6 hours, sets up underwater, bonds to wet or dry surfaces and hardens like steel
- Can be drilled, tapped, filed, machined, sanded and painted

**CarGo Quiksteel Epoxy Putty** CCM 16002US

- Withstands up to 500 degrees F.
- Sets in 5 minutes. Steel hard in 15 minutes. Full cure in 1 hour.
- Can be Drilled, Tapped, Filed, Machined, Sanded and Painted.
- Use on boat hulls, PWC’s, pool & spa, RV’s, sprinkler systems, PVC piping, plumbing, potable water containers and much more.
- Drinking Water Safe.

**Blue Magic Products Quiksteel Steel Reinforced Epoxy Aquasteel Putty, 2 oz. CCM 16532TRI**
Epoxy

- Withstands up to 500 degrees F.
- Sets in 5 minutes. Steel hard in 15 minutes. Full cure in 1 hour.
- Can be Drilled, Tapped, Filed, Machined, Sanded and Painted.
- Use on PVC, plastic, fiberglass, glass, ceramic, brass, copper, and much more.
- Drinking Water Safe.

Blue Magic Products Quiksteel Steel Reinforced Epoxy Putty Xtreme Heat, 2 oz. CCM 16562TRI

- For repairs around home, hobbies, plumbing, automobiles, marine and farm
- Resists temperatures up to 500°F (260°C)
- Virtually impervious to chemicals
- Sets in 5 minutes, fully cures in as little as 1 hour, sets up underwater, bonds to wet or dry surfaces and hardens like steel
- Can be drilled, tapped, filed, machined, sanded and painted

CarGo Quiksteel Plastic Epoxy Putty CCM 16502TRI

- A structural adhesive designed for general purpose bonding of a wide variety of material such as hard and soft plastics to specified surfaces.
- Forms a tough, durable bond to most plastics, composites, ceramics, wood in any combination.
- Fast curing product with gelling of mixed adhesive in 5 - 6 minutes and hardening in 9 - 10 minutes.
- NOTE: Will not bond most polyethylene or polypropylene plastics. Bonds hard and soft plastics to specified surfaces. Requires no primers, sets in five minutes at room temperature. Cream appearance. Gap filling to 0.125 inch. Water resistant and good chemical resistance. Temperature range -60°F to 250°F (-51°C to 121°C). Permanent strength up to 3500 PSI.

Permatex Black Plastic Weld PER 84145

- J-B Original is designed to be an alternative to welding, soldering and brazing.
- This epoxy bonds to most clean surfaces, and it will set in as little as 4 to 6 hours and fully cure in 24 hours.
- J-B Weld is waterproof and resistant to petroleum, chemicals and acid.
- It can be drilled, machined, painted, sanded and filed once it’s cured.
- J-B Weld is nontoxic and temperature resistant up to 600°F.

JB Weld Industrial Weld Shop-Size Epoxy (10 oz.) JB 8280

- Fully Cured in 1 Hour
- Sets in 5 Minutes
- Bonds To All Metals, Fiberglass, Plastics, Glass, and Wood
- Resistant to Water, Gas, and Oils

CarGo Quiksteel Reinforced Epoxy Paste Weld CCM 17002TRI

- This versatile, easy-to-use, general-purpose epoxy adhesive is 2-part adhesive and filler system that helps eliminate the need for welding or brazing.
- Formulated to set in 30 minutes without requiring clamping.
- Clear appearance.
- Fills gaps and will not shrink.
- When cured, can be drilled, sanded, threaded or filed. Resistant to water and solvents. Permanent strength up to 3500 PSI.

Permatex PermaPox 30-Minute High-Strength General-Purpose Epoxy (0.84 oz.) PER 84107

- RapidFix Dual Adhesive System.
- Features an Instant adhesive and welding powder

RapidFix RapidFix Pack RAP 6121705

- This versatile, easy-to-use, general-purpose epoxy adhesive is 2-part adhesive and filler system that helps eliminate the need for welding or brazing.
- Formulated to set in 5 minutes without requiring clamping.
- Clear appearance.
- Fills gaps and will not shrink.
- Resistant to water and solvents. Temperature range -60°F to 180°F (-51°C to 82°C). Permanent strength up to 3400 PSI.

Permatex PermaPox 5-Minute General-Purpose Epoxy (2 oz.) PER 84201

- J-B Marine Weld is designed to be strong, waterproof and weatherproof.
- It sets in as little as 4 hours and fully cures in 24 hours.
- Marine Weld will bond to most clean, dry surfaces.
- Once cured, it can be sanded, drilled, tapped, painted and machined.
- Nontoxic formula.

JB Weld Marine Weld Epoxy JB 8272

- Permatex 1-Minute General-Purpose Epoxy (0.84 oz.) PER 84160

- RapidFix Dual Adhesive System.
- Features an Instant adhesive and welding powder

RapidFix RapidFix Pack RAP 6121705

- This versatile, easy-to-use, general-purpose epoxy adhesive is 2-part adhesive and filler system that helps eliminate the need for welding or brazing.
- Formulated to set in 5 minutes without requiring clamping.
- Clear appearance.
- Fills gaps and will not shrink.
- Resistant to water and solvents. Temperature range -60°F to 180°F (-51°C to 82°C). Permanent strength up to 3400 PSI.

Permatex PermaPox 5-Minute General-Purpose Epoxy (2 oz.) PER 84201

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.
- Ultra-strong adhesive and reinforcing powders
- Repairs almost anything!
- Rock solid in 10 seconds!
- Q-Bond repairs are able to be ground, filed, sanded and even painted!
- The Q-BOND kit includes two (2) bottles Q-BOND adhesive (0.35 oz/10 ml); one (1) bottle black reinforcing powder for plastics; one (1) bottle grey reinforcing powder for metals.

**K Tool International Q-BOND Adhesive Kit**

ZIN KTI90002

- Convenient, premeasured epoxy mixer cups for less mess, less guesswork and less waste.
- Suitable for bonding glass, hard plastics, rubber and metal.
- Bonds in 5-15 minutes.
- Grey adhesive is formulated for enhanced chemical resistance.
- Fills porosities and can be used to help build up worn parts.

**Permatex Fast Cure Epoxy (1.4 oz.)**

PER 21425

- Dries clear
- Flexible - does not become brittle in cold weather
- Waterproof - submergible in fresh and salt water after completely cured
- Chemical resistant - safe for applications exposed to dilute acids and dilute caustics
- Abrasion resistant - suitable for bonding objects subject to wear

**Amazing Goop Automotive Adhesive**

CHM 16001

- Bonds: Wood, Stone, Metal, Ceramic, Foam, Glass & More!

**Gorilla Glue White Gorilla Glue (2 oz.)**

GGC 5201212

- Industrial strength, non-flammable adhesive that provides versatility not found in silicones and rubber cements
- Safe for applications exposed to dilute acids and dilute caustics
- Maintains a flexible bond in cold temperatures
- and may be used to bond items subject to vibration
- Exceptional adhesion to wood, metal, glass, fiberglass, ceramics, masonry and concrete

**E-6000 Adhesive (3.7 oz.)**

CHM 230022

- Weatherproof; can withstand changes in climate and resist water and other environmental elements
- Chemical resistant; is not affected by oil, gasoline, alcohol and most solvents
- Abrasion resistant; maintains bond strength, even on objects subject to wear
- Fast dry time; quickly creates a strong, secure bond
- Flexible; does not become brittle, even in cold weather

**Seal-All Contact Adhesive and Sealant**

MMM 380112

- Kit contains liquid bonding and curing light.
- Create hard plastic
- Dries in 4 seconds
- Works on metal, wood, ceramics, glass, plastics and more!

**Bondic Liquid Plastic Welder**

LZB SK001

**ADHESIVES**

**SPECIALTY ADHESIVES**

- A superior adhesive ideal for many applications including rubber, metal, auto or van carpeting and fabric-backed vinyl upholstery and automotive gaskets.
- Allows for repositioning parts after contact is made.
- Withstands extreme temperatures.
- Water resistant.
- Resistant to gasoline, kerosene, antifreeze and most solvents.

**Permatex Weatherstrip Adhesive**

PER 80638

- Fast drying, strong, flexible, rubbery adhesive
- Withstands vibration & extreme temperature variation
- Good oil and water resistance
- Black color designed to match vehicle weatherstrip for virtually invisible repair

**3M Super Weatherstrip Adhesive, Black (5 oz. Tube)**

MMM 8008

- Strong Flexible Bond
- Weather Resistant
- Dries Quickly
- 1 oz
- Black color

**3M Black Super Weatherstrip Adhesive (29.5 mL Tube)**

MMM 3602

- A low VOC, clear, high strength aerosol adhesive
- Used for bonding automotive materials such as carpeting, jute pads, fabrics and plastics to metal and other surfaces. Has good heat and water resistance.
- Bondo Easy Finish Aerosol Trigger - PN00128

**3M General Trim Adhesive (18.1 oz.)**

MMM 8088
Specialty Adhesives

- A high performance aerosol contact adhesive.
- Designed for bonding vinyl tops, heavyweight liners and hood silencer pads where high strength and heat resistance are needed.
- Bondo Easy Finish Aerosol Trigger - PN00128

3M Super Trim Adhesive, Yellow (19 oz.) MMM 8090

- Fast drying, strong, flexible, rubbery adhesive
- Withstands vibration & extreme temperature variation
- Good oil and water resistance

3M Super Weatherstrip and Gasket Adhesive, Yellow (5 oz. Tube) MMM 8001

- Fast drying, strong, flexible, rubbery adhesive
- Withstands vibration & extreme temperature variation
- Good oil and water resistance

3M Super Weatherstrip and Gasket Adhesive, Yellow (2 oz. Tube) MMM 8002

- This high-strength spray adhesive is designed for repairing interior parts which have become detached or loosened.
- The VOC-compliant formula bonds foam, fabrics, plastics, rubbers and other automotive materials.
- Resistant to extreme weather conditions.
- Water resistant.
- Dries clear for a neat appearance. High-temperature formula. Level 3*

Permatex Body Shop Heavy-Duty Headliner and Carpet Adhesive (16.75 oz.) PER 27828

- A single component, quick-drying clear adhesive.
- Used for bonding plastic or metal emblems, interior rigid plastic, tail light lenses, vinyl side moldings or upholstery.

3M Plastic and Emblem Adhesive (5 oz. Tube) MMM 8061

- Clear adhesive for interior or exterior bonding
- Bonds metal emblems, rigid plastic parts, taillight lenses and vinyl trim strips

3M Plastic Emblem and Trim Adhesive MMM 3601

- Permanent attaches foils, carpeting, paper, and more

3M Super 77 Multipurpose Adhesive Aerosol MMM 21210

- Dries clear with superior bonding strength.
- For permanent or repositionable applications.
- Unique formula resists water and humidity.
- Applications include porous and nonporous materials.
- Level 3*

Permatex All-Purpose Spray Adhesive (11 oz.) PER 82019

- Ideal for items that must withstand daily use and abuse.
- Outdoor or unheated area safe, all temperature, all conditions.
- No drip performance gel formula in a Control Applicator
- Provides extra working time to align parts
- Use on metal, rubber, ceramic, wood, leather, paper and plastic

Loctite Super Glue Ultra Controlled Dispense Gel LOC 1363589

- Fast acting liquid formula.
- Precision tip for accurate dispensing.
- No-clog cap cleans and seals nozzle after every use.
- No-drip stand-up container.
- Use on leather, wood paper, rubber, ceramic, metal and plastics

Loctite Super Glue Long Neck LOC 230992

- Heavy-Duty
- Clear
- Multipurpose
- Impact Resistant
- Anti-Clog Cap & No Run

Gorilla Glue Super Glue Gel (15 g) GGC 7600101

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.
**ADHESIVES**

**ADHESIVE REMOVER**

- Strong, fast-acting, it quickly softens even the toughest adhesives in 30 minutes or less

  **Goof-Off Adhesive Remover** KS FG795

**COMPOUNDS**

**ANTI SEIZE**

- A highly refined blend of aluminum, copper and graphite lubricants.
- Use during assembly to prevent galling, corrosion and seizing and to assure easy disassembly.
- Handles temperatures ranging from -60°F to 1600°F
- The lubricant is salt, corrosion and moisture resistant and is ideal for marine use.
- Nonaerosol version meets Mil spec #907E. Aerosol - Level 3*

  **Permatex Anti-Seize Lubricant (8 oz.)** PER 80078

- A highly refined blend of aluminum, copper and graphite lubricants. Use during assembly to prevent galling, corrosion and seizing and to assure easy disassembly.
- Handles temperatures ranging from -60°F to 1600°F.
- The lubricant is salt, corrosion and moisture resistant and is ideal for marine use.
- Nonaerosol version meets Mil Spec #907E.
- Aerosol - Level 3*.

  **Permatex Anti-Seize Lubricant (1 oz.)** PER 81343

- A highly refined blend of aluminum, copper and graphite lubricants. Use during assembly to prevent galling, corrosion and seizing due to weathering or chemicals.
- Anti-Seize assures easier disassembly.
- Temperature range: -60°F to 1600°F (-51°C to 871°C). Salt, corrosion and moisture resistant - ideal for marine use.
- Non-aerosol version meets Mil Spec #907E. Aerosol - Level 3*

  **Permatex Anti Seize Spray** PER 81464

---

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.*
COMPONENTS

BRAKE LUBRICANTS

- This 100% synthetic lubricant contains real ceramic solids for extreme performance under critical braking conditions.
- A purple, environmentally friendly, nonmelting formula, this premium lubricant is a long-lasting, highly temperature resistant way to silence brake noise such as squealing and chattering; also effective for preventing long bolt and sleeve seizing and galling.
- Suitable for use on rolling and sliding surfaces operating in wet or dry conditions.
- This product helps ensure that critical brake parts remain lubricated throughout the life of the brake pad. Resistant to corrosion and contaminants, it will not wash out.
- It is compatible with internal/external brake rubber and plastic hardware, including ethylene-propylene rubber.

Permatex Ceramic Extreme Brake Parts Lubricant (8 oz.) PER 24125

- A 100% synthetic formula, coupled with real ceramic solids make this premium brake lubricant our longest lasting, most temperature resistant lubricant. Effective from -50°F to 3000°F (-46°C to 1649°C), this product maintains its lubricating integrity under the most extreme conditions.
- Resistant to corrosion and contaminants, it will not wash out.
- For metal-to-metal contact only.

Permatex Ceramic Brake Lub PER 20354

- This environmentally-friendly, nonmelting synthetic lubricant is formulated to lubricate under adverse braking conditions, helping to assure that critical caliper pins, sleeves, bushings and pistons remain reliably lubricated.
- An environmentally friendly, non-melting lubricant, this product is formulated to lubricate under adverse brake conditions to help assure that critical caliper pins, sleeves, bushings and pistons remain lubricated throughout the life of the pad.

Permatex Ultra Disc Brake Caliper Lube (8 oz.) PER 24110

- An environmentally-friendly, green, nonmelting, synthetic lubricant.
- It is formulated to lubricate under the most adverse brake conditions, assuring that critical caliper pins, sleeves, bushings and pistons remain lubricated throughout pad life.

Permatex Disc Brake Caliper Lube PER 20353

- Sil-Glyde Brake Lubricant is a silicone-based brake lubricant recommended for the entire brake assembly, is compatible with plastic and rubber (EPDM & Nitrile), and dampens vibrations between contact points.
- It is moisture-proof and heat resistant to over 425 degrees F (218 degrees C), which means it won’t burn-off like other brake noise products.
- Its long-lasting properties provide a noise-free brake installation and easy disassembly.
- Using AGS brake lubricant is one of the keys to eliminating disc brake squeal and protecting parts from corrosion and rust.

American Grease Stick Co. Sil-Glyde Silicone Brake Lubricant, Tube (4 oz.) AGS BK-4

DIELECTRIC GREASE

- Protects electrical connections and wiring from salt, dirt and corrosion.
- Helps extend the life of bulb sockets.
- Prevents voltage leakage around any electrical connection.
- Also prevents spark plugs from fusing to boots.
- Required for modern high-energy ignition systems.

Permatex Dielectric Tune-Up Grease (3 oz.) PER 22058

- Protects electrical connections and wiring from salt, dirt and corrosion.
- Helps extend the life of bulb sockets.
- Prevents voltage leakage around any electrical connection.
- Also prevents spark plugs from fusing to boots.
- Required for modern high-energy ignition systems.

Permatex Dielectric Tune-Up Grease (0.33 oz.) PER 81150

- Protects electrical connections and wiring from salt, dirt and corrosion.
- Helps extend the life of bulb sockets.
- Prevents voltage leakage around any electrical connection.
- Also prevents spark plugs from fusing to boots.
- Required for modern high-energy ignition systems.

Permatex Dielectric Tune-Up Grease (3 oz.) PER 81153

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.
**COMPONENTS**

**OTHER COMPONENTS**

- A specially developed synthetic grease with a high-tech formula for use in disc & drum brake systems.
- High temperature grease is plastic & rubber safe.
- Use on metal to metal contact points and sliding surfaces.
- Resists moisture and will not washout.

_CRC Brake Caliper Synthetic Grease (12 oz.) CRC 5353_

**COMPONENTS**

**THREAD COMPONENTS**

- OEM specified.
- All-purpose medium-strength threadlocker.
- Ideal for all nut and bolt applications 1/4” to 3/4” (6 mm to 20 mm).
- Eliminates the need for stocking expensive lock nuts and lock washers.
- Locks and seals while preventing parts loosening due to vibration. Protects threads from corrosion. Removable with hand tools for simple disassembly.

_Permatex Medium-Strength Threadlocker (Blue) (1.22 oz.) PER 24240_

- OEM specified.
- High-strength threadlocker for heavy-duty applications 3/8” - 1” (10 mm - 25 mm).
- Well-suited for permanently locking studs and press fits.
- Adds 3,000 PSI holding power on slip and press-fit assemblies.
- Replaces set screws and snap rings. Locks against vibration loosening. May require heat or special tools for removal.

_Permatex High-Strength Threadlocker (Red) (1.22 oz.) PER 27140_

- OEM specified.
- All-purpose medium-strength threadlocker. Ideal for all nut and bolt applications 1/4” to 3/4” (6 mm to 20 mm).
- Eliminates the need for stocking expensive lock nuts and lock washers.
- Locks and seals while preventing parts loosening due to vibration.
- Protects threads from corrosion. Removable with hand tools for simple disassembly.

_Permatex Medium-Strength Threadlocker (Blue) (0.2 oz.) PER 24200_

- OEM specified.
- High-strength threadlocker for heavy-duty applications 3/8” - 1” (10 mm - 25 mm).
- Well-suited for permanently locking studs and press fits.
- Adds 3,000 PSI holding power on slip and press-fit assemblies.
- Replaces set screws and snap rings. Locks against vibration loosening. May require heat or special tools for removal.

_Permatex High-Strength Threadlocker (Red) (0.2 oz.) PER 27100_

- Economical general-purpose fitting sealant.
- Seals and resists pressure in air, oil, diesel fuel and hydraulic systems.
- Remains pliable at high and low temperatures.
- Handles temperatures ranging from -65°F to 300°F and resists common shop fluids.

_Permatex Thread Sealant with PTFE (4 oz.) PER 80632_

- Proper lubrication of metal mating surfaces is essential prior to starting a new or rebuilt engine.
- Ultra Slick is formulated to adhere to component surfaces to help prevent scuffing and galling during initial startup.
- Meets or exceeds OEM performance specs for engine assembly lubricants.

_Permatex Engine Assembly Lube (4 oz.) PER 81950_

- Aids valve grinding and seating operations to remove burrs, surface defects, carbon, gum and corrosion.
- Can be used for lapping and grinding chromium.
- Mixes with water to form an easy-to-use paste.

_Permatex Valve Grinding Compound (1.5 oz.) PER 80036_

- Aids valve grinding and seating operations to remove burrs, surface defects, carbon, gum and corrosion.
- Can be used for lapping and grinding chromium.
- Mixes with water to form an easy-to-use paste.

_Permatex Valve Grinding Compound PER 80037_

- Aids precision-fitting of machined surfaces. Locates high spots on bearings, valves, gears and other close-tolerance components.
- Non-drying.
- Easy clean-up.

_Permatex Prussian Blue (0.75 fl oz.) PER 80038_

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.*
Thread Compounds

- The Gel Twist pin-point applicator puts the threadlocker on the part.
- Gel formula provides liquid-reliability without drips, globs, mess or waste.
- All-purpose medium-strength threadlocker.
- Ideal for all nut and bolt applications 1/4" - 1" (6 mm - 25 mm). Eliminates the need for stocking expensive lock nuts and lock washers.
- Locks and seals while preventing parts from loosening due to vibration. Protects threads from corrosion. Removable with hand tools for simple disassembly, Mil-Spec (S-46163A) Type II, Grade N.

Permatex Gel Twist Medium-Strength Threadlocker Blue Gel (0.35 oz.) PER 24010

- The Gel Twist pin-point applicator puts the threadlocker on the part.
- Gel formula provides liquid-reliability without drips, globs, mess or waste.
- High-strength threadlocker for heavy-duty applications.
- Well-suited for permanently locking studs and press fits. Adds 3,000 PSI holding power on slip and press-fit assemblies.
- Replaces set screws and snap rings. Locks against vibration loosening. May require heat or special tools for removal.

Permatex Gel Twist High-Strength Threadlocker Red Gel (0.35 oz.) PER 27010

- OEM specified. Locks and seals threaded fittings.
- Resists leakage, vibration loosening, moisture, hydraulic fluids and diesel fuels. Lubricates threads for simple assembly and disassembly.
- Won’t shred or wear.
- Parts may be repositioned up to 4 hours after application.
- Contains polytetrafluoroethylene (PTFE).

Permatex High-Temperature Thread Sealant (0.2 oz.) PER 59214

- OEM specified.
- Locks and seals threaded fittings.
- Resists leakage, vibration loosening, moisture, hydraulic fluids and diesel fuels.
- Lubricates threads for simple assembly and disassembly.
- Won’t shred or wear. May require heat for disassembly.
- Contains polytetrafluoroethylene (PTFE).

Permatex Counterman’s Choice Anti-Seize Lubricant PER 9975

- This 100% synthetic lubricant contains real ceramic solids for extreme performance under critical braking conditions.
- With its purple, environmentally friendly, nonmelting formula, this premium lubricant is a long-lasting, temperature-resistant way to silence brake noise such as squealing and chattering.
- Also effective in preventing long bolt and sleeve seizing and galling.

Permatex Ceramic Extreme Brake Parts Lubricant PER 9973

- The ONLY Thread Sealant with the Strength of Threadlocker Blue
- Seals up to 1,000 PSI
- Removable with Hand Tools
- Ideal for: Fuel, Coolant, Power Steering, A/C, and Brake Systems

Permatex Seal + Lock Thread Compound, 1.18 oz. PER 57535

- OEM specified.
- Formulated specifically for metal, tapered pipe thread fittings.
- It replaces Teflon” tape and pipe dopes.
- Cures rapidly to withstand 10,000 PSI.
- Prevents galling and protects mated threaded areas from rust and corrosion. Contains polytetrafluoroethylene (PTFE).

Permatex High-Performance Thread Sealant PER 56521

- OEM specified.
- Formulated specifically for metal, tapered pipe thread fittings.
- It replaces Teflon® tape and pipe dopes.
- Cures rapidly to withstand 10,000 PSI.
- Prevents galling and protects mated threaded areas from rust and corrosion. Contains polytetrafluoroethylene (PTFE).

Permatex High-Temperature Thread Sealant (1.69 oz.) PER 59235

- OEM specified.
- A low-viscosity threadlocking liquid that wicks along the threads of preassembled fasteners to secure them in place.
- Since it is applied after assembly, preventive maintenance procedures are simplified.
- Ideal for fasteners ranging from #2 to 1/2” (2.2 to 12 mm) in size.
- Localized heating and hand tools are needed for disassembly.

Permatex Penetrating-Grade Threadlocker (Green) (0.2 oz.) PER 29000

- PrOjECt PACKS

- Permatex Bulb Grease eases bulb installation and helps to improve electrical connections.
- The application also extends the life span of the bulb.

Permatex Bulb Grease PER 9941

- A highly refined blend of aluminum, copper and graphite lubricants.
- Use during assembly to prevent galling, corrosion and seizing and to assure easier disassembly.
- Temperature range: -60°F to 1600°F (-51°C to 871°C).
- Salt, corrosion and moisture resistant.
- Ideal for marine use.

Permatex Counterman’s Choice Anti-Seize Lubricant PER 9975

- Permatex Ceramic Extreme Brake Parts Lubricant PER 9973

* Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.
• Protects electrical connections and wiring from salt, dirt and corrosion.
• Helps extend the life of bulb sockets.
• Prevents voltage leakage around any electrical connection.
• Also prevents spark plugs from fusing to boots.
Permatex Dielectric Tune-Up Grease PER 9980

• This environmentally friendly, nonmelting synthetic lubricant is formulated to lubricate under adverse braking conditions, helping to assure that critical caliper pins, sleeves, bushings and pistons remain reliably lubricated.
Permatex Ultra Disc Brake Caliper Lube PER 9977

• OEM specified.
• All-purpose, medium strength threadlocker.
• Ideal for all nut and bolt applications 1/4” to 3/4” (6mm to 20mm).
• Eliminates need for stocking expensive lock nuts and lock washers.
• Locks and seals while preventing parts loosening due to vibration. Protects threads from corrosion. Removable with hand tools for easy disassembly. Conforms to ASTM D 5363 AN0321 (Mil-S-46163A, Type II, Grade N).
Permatex Threadlocker Pipette Blue PER 19967

• Non-hardening formula designed for rubber gaskets.
• Offers enhanced resistance to oil/ fluid flow.
• Conditions gaskets for longer life and helps seal potential leak areas.
Permatex Counterman’s Choice Gasket Sealant and Dressing PER 9974

SEALANTS
GASKET MAKERS

• OEM specified.
• Highest operating temperatures for 4-cylinder, turbocharged or high-performance engines.
• Sensor-safe, low odor, noncorrosive.
• Superior adhesion.
• Three times more oil resistant than conventional silicones and 8 times more flexible than cut gaskets.
Permatex Ultra Copper Maximum Temperature RTV Silicone Gasket Maker (3 oz.) PER 81878

• OEM specified.
• Formulated for hi-temp applications or heavy-duty use (such as towing, etc.).
• Replaces almost any cut gasket by making reliable formed-in-place gaskets that resist cracking, shrinking and migrating caused by thermal cycling.
• Coats precut gaskets to increase reliability.
• Handles temperatures ranging from -85°F to 650°F intermittent and resists auto and shop fluids. First generation 1970 - 1980 gasket maker.
Permatex High-Temp Red RTV Silicone Gasket (3 oz.) PER 81160

• OEM specified.
• Formulated for hi-temp applications or heavy-duty use (such as towing, etc.).
• Replaces almost any cut gasket by making reliable formed-in-place gaskets that resist cracking, shrinking and migrating caused by thermal cycling.
• Coats precut gaskets to increase reliability.
• Handles temperatures ranging from -85°F to 650°F intermittent and resists auto and shop fluids. First generation 1970 - 1980 gasket maker.
Permatex High-Temp Red RTV Silicone Gasket (11 oz.) PER 81409

• OEM specified.
• For dealership warranty requirements, ensures extended drivetrain warranty compliance.
• Fast-curing formula.
• Sensor safe, low odor, noncorrosive.
• Meets performance specs of OE silicone gaskets. Retains high flexibility and oil resistance properties through use of an adhesion system.
Permatex Ultra Black Maximum Oil Resistance RTV Silicone Gasket Maker PER 24105

• OEM specified.
• For dealership warranty requirements, ensures extended drivetrain warranty compliance.
• Fast-curing formula. Sensor safe, low odor, noncorrosive.
• Meets performance specs of OE silicone gaskets.
• Retains high flexibility and oil resistance properties through use of an adhesion system. Handles temperatures ranging from -65°F to 500°F intermittent and resists auto and shop fluids and vibration.
Permatex Ultra Black Maximum Oil Resistance RTV Silicone Gasket Maker (9.5 oz.) PER 85080

* Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.
**Gasket Makers**

10 **CARQUEST® Auto Parts Service Lines Catalog**

- OEM specified.
- For dealership warranty requirements, ensures extended drivetrain warranty compliance.
- Fast-curing formula.
- Sensor safe, low odor, non-corrosive.
- Meets performance specs of OE silicone gaskets. Retains high flexibility and oil resistance properties through use of an adhesion system.

**Permatex Ultra Black Maximum Oil Resistance RTV Silicone Gasket Maker (3.35 oz.)** PER 82180

- OEM specified.
- Designed specially for high-torque and high-vibration applications, like those common in import engines, this premium RTV gasket maker exceeds manufacturers’ performance requirements.
- Noncorrosive and low-odor.
- Offers maximum vibration resistance with outstanding resistance to oils, cooling and shop fluids.
- Guaranteed not to leak. Temperature range -65°F to 500°F (-54°C to 260°C) intermittent.

**Permatex Ultra Grey Rigid High-Torque RTV Silicone (0.5 oz.)** PER 22074

- Specially formulated to withstand high vibration and high temperatures up to 700°F.
- Maximum Torque Load Resistance
- Sensor-safe, Low Odor, Non-corrosive
- Extra Nozzle

**Permatex OPTIMUM GREY Gasket Maker, 3.35 oz.** PER 27036

- J-B Weld Ultimate Grey Gasket Maker & Sealant is an RTV (Room Temperature Vulcanized) Silicone gasketing material designed for use in mechanical assemblies where higher torque or closely spaced bolt profiles can lead to higher loads and cause gasket and sealing failures for average silicones. Upon curing, which occurs when the product is exposed to the moisture in air, the silicone forms a tough, waterproof, gasket and seal on most surfaces. It will not shrink or crack, resists oil and petroleum products, resists weathering, is sensor safe, has good temperature resistance up to 500°F intermittent and is great for many automotive applications.

**JB Weld Ultimate Black RTV JB 32327**

- Make leak-proof gaskets in just 1 minute with The Right Stuff®.
- This elastomeric rubber gasket technology is blowout resistant and outperforms precut gaskets.
- Specified on production lines by GM, Ford, DaimlerChrysler and Mercedes-Benz.
- Protects against leaks caused by vibration and thermal expansion.
- Sensor-safe.

**Permatex The Right Stuff Gasket Maker** PER 99070

- Return equipment to service immediately when you make leak-proof gaskets in as little as 1 minute with The Right Stuff®.
- This elastomeric rubber gasket technology is blowout resistant.
- Specified on production lines by GM, Ford, DaimlerChrysler and Mercedes-Benz.
- Temperature range: -75°F to 450°F (-59°C to 232°C) continuous, 500°F (260°C) intermittent. Resists ATF, coolant, oil and other shop fluids.
- Helps protect against leaks caused by vibration and thermal expansion. Sensor-safe.

**Permatex The Right Stuff Gasket Maker (10.1 oz.)** PER 33694

---

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.*
- Specifically designed to perform under high torque loads caused by engines with closely-spaced bolt patterns (typically import vehicles).
- This product is blowout resistant, allowing leakproof gaskets to be made and put into service in just 1 minute.
- Sensor-safe, The Right Stuff® for imports seals instantly forming a reliable long-lasting elastomeric rubber gasket that outperforms precut gaskets.
- OEM specified by Honda, Nissan and Mazda. This product is resistant to powertrain fluids (oil, coolant and ATF) and operates in environments with temperatures up to 450°F continuous and 500°F intermittent.

**Permatex The Right Stuff for Imports Gasket Maker (10.1 oz.)** PER 34310

- Make leak-proof gaskets and return equipment to service immediately!
- Permatex® premier instant gasket maker was designed as a replacement for conventional gaskets.
- This elastomeric “formed-in-place” material is more reliable and longer lasting than pre-cut gaskets.
- It is blowout resistant and protects against leaks and seepage caused by vibration and thermal expansion. Formulated to meet or exceed performance standards for long-term sealability, durability and handling, this material is used on OEM production lines and specified in their service parts programs.
- Temperature range -75°F to 450°F (-59°C to 232°C) continuous, 500°F (260°C) intermittent; resists ATF, coolant, oil and other shop fluids. Sensor-safe. Fleet-tested.

**The Right Stuff Gasket Maker (7.5 oz.)** PER 85224

- Return equipment to service immediately when you make leak-proof gaskets in as little as 1 minute with The Right Stuff®.
- This elastomeric rubber gasket technology is blowout resistant.
- Specified on production lines by GM, Ford, DaimlerChrysler and Mercedes-Benz.
- Temperature range -75°F to 450°F (-59°C to 232°C) continuous, 500°F (260°C) intermittent; resists ATF, coolant, oil and other shop fluids.
- Helps protect against leaks caused by vibration and thermal expansion. Sensor-safe.

**Permatex The Right Stuff Gasket Maker (5 oz.)** PER 29208

- Make leak-proof gaskets and return equipment to service immediately!
- Permatex® premier instant gasket maker was designed as a replacement for conventional gaskets.
- This elastomeric “formed-in-place” material is more reliable and longer lasting than pre-cut gaskets.
- It is blowout resistant and protects against leaks and seepage caused by vibration and thermal expansion.
- Formulated to meet or exceed performance standards for long-term sealability, durability and handling, this material is used on OEM production lines and specified in their service parts programs. Temperature range -75°F to 450°F (-59°C to 232°C) continuous, 500°F (260°C) intermittent; resists ATF, coolant, oil and other shop fluids. Sensor-safe. Fleet-tested.

**Permatex The Right Stuff Gasket Maker (4 oz.)** PER 25223

- Just torque and go! This handy size package contains enough material to completely replace two or three large cut gaskets.
- The long-lasting, black elastomeric formed-in-place rubber gasket can be custom fit to any shape or size. Ideal for all non-fuel sealing applications. 1 Minute Gasket is superior to most OE gaskets and fleet-tested to be leak-free in more than 5 million miles of heavy commercial use.
- Protects against leaks caused by vibration and thermal expansion.
- Temperature range -75°F to 450°F (-59°C to 232°C) continuous, 500°F (260°C) intermittent; resists ATF, coolant, oil and other shop fluids.
- Sensor-safe.

**Permatex The Right Stuff 1-Minute Gasket (3 oz.)** PER 25229

- OEM specified.
- Noncorrosive gasketing material designed primarily for use on aluminum, iron, and steel-flanged mating surfaces.
- Ideal for on-the-spot and emergency repairs or when a conventional gasket is unavailable.
- Fills gaps up to .015” and cures to a solvent-resistant seal that will not tear or decay during service.
- Parts disassemble simply even after extended service and old gasket material can be removed in minutes with a simple putty knife.

**Permatex Anaerobic Gasket Maker (1.69 oz.)** PER 51813

- Will not foul oxygen sensors.
- Replaces almost any cut gasket.
- Makes reliable formed-in-place gaskets that resist cracking, shrinking and migrating. Coats precut gaskets to increase reliability.
- Handles temperatures ranging from -65F to 500F intermittent and resists auto and shop fluids.

**Permatex Sensor-Safe Blue RTV Silicone Gasket Maker (3 oz.)** PER 80022

- OEM specified.
- Ultra silicones were developed to meet today’s technology changes.
- Sensor-safe, low odor, noncorrosive.
- Great oil resistance and joint movement values.
- Eight times more flexible than cork/composite gaskets and 3 times more oil resistant than conventional silicones.

**Permatex Ultra Blue Multipurpose RTV Silicone Gasket Maker (3 oz.)** PER 81724

- A noncorrosive, sensor-safe RTV silicone gasket material formulated specifically for water pumps and thermostat housings.
- Highest water-glycol resistance available in an RTV silicone.
- Handles a temperature range of -65F - 500F intermittent.

**Permatex Water Pump And Thermostat RTV Silicone Gasket (0.5 oz)** PER 22071

---

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.*
SEALANTS

GASKET SEALANTS

- Fast-drying, metallic copper sealant helps dissipate heat, prevents gasket burnout and improves heat transfer.
- The sealant also fills minor surface irregularities, hot spots and surface imperfections and seals instantly.
- The sealant can handle temperatures ranging from -50°F to 500°F and resists all types of automotive fluids, especially gasoline.

Permatex Copper Spray-A-Gasket Hi-Temp Adhesive Sealant (10 oz.) PER 80697

- OEM specified.
- Specially formulated to withstand the harsh gear oil environment found in differentials and transfer cases.
- Because gear oil has friction modifiers that break down normal RTV and cause leaking, this silicone has been tested to OEM specifications to ensure complete sealing.
- As a gasket maker, it seeks and seals leak paths that cut gaskets cannot.

Permatex Gear Oil RTV Sealant (3 oz.) PER 81182

- Fast-drying all-purpose sealant dries to a highly tacky, nonbrittle film.
- This reliable general adhesive remains effective in temperatures of -65°F - 500°F and resists gasoline, oil, antifreeze, axle lube, kerosene, propane and butane.

Permatex High Tack Gasket Sealant (4 oz.) PER 80062

- For 2- and 4-cycle engines.
- Solvent-based bond fully seals in as little as 20 minutes.
- Forms a tough, flexible bond that is highly effective on irregular and uneven joint surfaces.
- Suitable for use on frequently disassembled engines.
- Resists gasoline and other damaging fluids. Withstands temperatures 350°F (177°C) continuous, 400°F (204°C) intermittent.

Permatex MotoSeal 1 Ultimate Gasket Maker Grey (2.7 oz.) PER 29132

- Specially formulated for superior fluid resistance, this polyester urethane based gasketing compound withstands extreme temperature changes without hardening.
- Its non-setting, non-hardening character remains tacky even with rapid changes in temperature, enabling repeated assembly and disassembly of parts.
- Suitable as either a gasket maker or dressing, PermaShield seals surface imperfections between metal parts and is ideal in high performance applications.
- With an operating temperature range of -60° to 500°F (-50° to 260°C), this compound resists common engine fluids, including oil, gasoline, ethanol, water and anti-freeze and prevents contamination from moisture and dust.

Permatex Gasket Sealant PER 85420

- Advanced formula RTV Gasket Maker designed specifically for resistance to unique synthetic motor oil chemical properties.
- Prevents leak paths commonly associated with synthetic motor oils.
- Recommended for close tolerances and high performance parts.
- Temperatures up to 500° F Intermittent.
- Import/Domestic compatible.

Permatex Gasket Maker PER 82135

- This general-purpose clear RTV sealant is designed for indoor and outdoor use.
- It seals, bonds, repairs, mends and secures glass, metal, plastics, fabric, vinyl and weather-stripping and vinyl tops.
- The sealant also protects and repairs electrical wiring and may be applied to horizontal or vertical surfaces.
- The sealant is waterproof and flexible and can handle temperatures ranging from -75°F to 400°F.
- The sealant resists oil, water, weather, vibration and grease.

Permatex Clear RTV Silicone Adhesive Sealant (3 oz.) PER 80050

- Helps remove solvent-based gasketing adhesives and sealants, even baked-on gaskets.
- Use to remove gasket from flange material in as little as 15-20 minutes.
- Prepares flanges for new gasket.
- Gasket Remover reduces scraping and grinding, eliminating potential damage to flanges.
- VOC compliant; can be used in all 50 states.

Permatex Low-VOC Gasket Remover (4 oz.) PER 80645

- Slow-drying, nonhardening brush-top sealant approved for use in aviation as well as automotive applications.
- Handles temperatures ranging from -65F to 400F and resists gasoline, oil and grease.

Permatex Aviation Form-A-Gasket No. 3 Sealant (4 oz.) PER 80019

- O E M specified.
- This sealant withstands the harsh detergents and friction modifiers found in AT fluid.
- Developed with US automotive OEMs and complies with extended warranty requirements.
- It resists aging, weathering and thermal cycling without hardening, shrinking or cracking.
- Benefits include improved transmission oil resistance, good adhesion while retaining flexibility, sensor-safe, noncorrosive and can be used as a gasket maker or dressing.
- Nonflammable, nontoxic, low odor.

Permatex Automatic Transmission RTV Sealant (3 oz.) PER 81180

- Formed for use in aviation as well as automotive applications.
- Slow-drying, nonhardening brush-top sealant approved for use in aviation as well as automotive applications.
- Handles temperatures ranging from -65F to 400F and resists gasoline, oil and grease.

Permatex Gasket Remover (3 oz.) PER 80645

- Advanced formula RTV Gasket Maker designed specifically for resistance to unique synthetic motor oil chemical properties.
- Prevents leak paths commonly associated with synthetic motor oils.
- Recommended for close tolerances and high performance parts.
- Temperatures up to 500° F Intermittent.
- Import/Domestic compatible.

This general-purpose clear RTV sealant is designed for indoor and outdoor use. It seals, bonds, repairs, mends and secures glass, metal, plastics, fabric, vinyl and weather-stripping and vinyl tops. The sealant also protects and repairs electrical wiring and may be applied to horizontal or vertical surfaces. The sealant is waterproof and flexible and can handle temperatures ranging from -75°F to 400°F. The sealant resists oil, water, weather, vibration and grease.

**Permatex Clear RTV Silicone Adhesive Sealant (7.25 oz.)** PER 85913

- This general-purpose clear RTV sealant is designed for indoor and outdoor use.
- It seals, bonds, repairs, mends and secures glass, metal, plastics, fabric, vinyl and weather-stripping and vinyl tops.
- The sealant also protects and repairs electrical wiring and may be applied to horizontal or vertical surfaces.
- The sealant is waterproof and flexible and can handle temperatures ranging from -75°F to 400°F.
- The sealant resists oil, water, weather, vibration and grease.

**Permatex Clear RTV Silicone Adhesive Sealant (11 oz.)** PER 80855

- Hard-setting, economical sealant.
- Seals all common gasketing materials in low-temperature and low-pressure applications.
- Handles temperatures ranging from -65°F to 350°F and resists diesel fuels and most shop fluids.

**Permatex Indian Head Gasket Shellac Compound (2 oz.)** PER 20539

- Slow-drying, nonhardening sealant designed for sealing cut gaskets and stamped parts.
- Allows for simple disassembly if required.
- Handles temperatures ranging from -65°F to 400°F and resists common shop fluids and fuels.
- Use where sealing is more important than adhesion.

**Permatex Form-A-Gasket No. 2 Sealant (3 oz.)** PER 80016

- Fast-drying all-purpose sealant dries to a highly tacky, nonbrittle film.
- A reliable general adhesive.
- Remains effective under temperatures of -65°F - 500°F.
- Resists gasoline, oil, antifreeze, axle lube, kerosene, propane and butane.
- Level 3*

**Permatex High Tack Spray-A-Gasket Sealant (9 oz.)** PER 80065

- Fast-drying sealant dries to a highly tacky, nonbrittle film.
- The sealant handles temperatures ranging from -65°F to 500°F and resists gasoline, oil, antifreeze and axle lube.

**Permatex Super High Tack Gasket Sealant (1.75 oz.)** PER 80060

---

*Disclaimer: Not all products listed in this catalog are stocked in all stores or DC locations. If not stocked, they are available via special order.
**Specialty Maintenance**

**Glass/WINDOW Repair**

- Requires no mixing and no heat. Safe and simple to use.
- Has the same index of refraction as the original glass to make the repair virtually undetectable.

**Permatex Bullseye Windshield Repair Kit** PER 16067

- Make permanent airtight repairs on most types of damaged laminated windshield glass, including bull’s-eyes, star damage and chips up to 1-1/4”.
- Formulated to cure by natural daylight and allow you to make professional-quality repairs with no mixing required.
- This complete kit provides everything needed for the repair including easy-to-follow instructions with photographs.

**Permatex Windshield Repair Kit** PER 9103

**Fuel Tank Repair**

- Seals small holes and weak seams in gas tanks without welding or tank removal.
- Repairs leaks and holes in all types of radiators.
- Hardens in 60 minutes, permanent.
- (This product is not for use on plastic gas tanks.)

**Permatex Fuel Tank Repair** PER 84334

- Kit includes 1 epoxy stick, 1 piece of 2” x 4” sandpaper and 1 alcohol towelette.
- Ideal for cars, trucks and RVs with metal gas tanks or radiators. Can also be used on metal gas cans. Not for use on plastic gas tanks.
- Seals small holes, leaks and weak seams without welding or gas tank removal.
- Contains epoxy resin and polymericcaptan

**Permatex Fuel Tank and Radiator Repair Kit** PER 9116

**Muffler/Exhaust Repair**

- It’s the original Tiger Patch(R) Muffler or Tailpipe Repair Tape!
- Mechanic approved, simple wrap-around 2” x 36” tape permanently seals in minutes, no tools required.
- Wrap Tiger Patch firmly around damaged area, idle motor or drive vehicle for 20 minutes.
- Tiger Patch heat seals itself and becomes a permanent part of your muffler or tailpipe.

**Versachem Muffler Repair Tape** PER 10270
**Rearview Mirror Repair**

- 2-Part (towelette and pipette) professional-strength rearview mirror adhesive and activator.
- Includes a medical-grade towelette that helps to minimize application messes and improve application accuracy and safety.

Permatex Extreme Rearview Mirror Professional-Strength Adhesive PER 81840

**Specialty Maintenance**

- Complete kit for repairing cracks and splits in mufflers, tailpipes, and exhaust pipes.
- Withstands temperatures over 1,000°F (540°C).
- Contains ready-to-use foil-packed bandage and support wire.

Permatex 1,000 Plus Exhaust Repair Kit PER 80334

**Specialty Maintenance**

**Other Specialty**

- FiberFix for high heat applications up to 850 degrees.
- Hi-Temp exhaust pipe repair tape

FiberFix FiberFix Heat Wrap SPK 857101004235

**Specialty Maintenance**

- Extra Fine Graphite AGS Extra Fine Graphite is the finest all-purpose, dry powder lubricant which is both odorless and non-toxic.
- Use to guard against sticking, wear, and corrosion.
- Can be used year-round on all types of material, including metal, wood, plastic, and rubber.
- Suggested applications: precision instruments, locks, hinges, tools, guns, fishing reels, camera shutters, bicycles, office machines, toys, and other fine mechanisms.

American Grease Stick Co. Graphite Extra Fine Powdered, Tube (0.21 oz. Card) AGS ME-2

**Specialty Maintenance**

- Seals holes and leaks in mufflers, tailpipes, and around joints, makes new installations more secure and resists temperatures to 2,000°F (1,000°C).

Permatex Muffler & Tailpipe Sealer (3 oz.) PER 80335

- Permanently repairs holes and leaks in exhaust systems.
- Seals out fumes at temperatures up to 2,000°F (1,000°C).
- Safe for catalytic converters.
- 2-pouch bonus pack.

Permatex Muffler and Tailpipe Putty PER 80333

**Specialty Maintenance**

- This epoxy-impregnated fiberglass bandage chemically welds mufflers and tailpipes, permanently repairs holes and leaks in exhaust systems and seals out poisonous fumes to temperatures of 800°F (426°C).

Permatex Muffler and Tailpipe Bandage PER 80332

**Specialty Maintenance**

- Thermosteel is engineered to withstand temperatures up to 2400°F and to withstand direct flame.
- Use Thermosteel to repair furnaces, BBQs or other high-heat item to fill cracks, holes and pits. Strength is designed to increase with heat.

CarGo Thermosteel Thermosteel 2400°F Cold Weld CCM 18003TRI

**Specialty Maintenance**

- Repair an exhaust manifold, catalytic converter, crossover pipes, mufflers and tailpipes.
- Everything needed for the repair is in this kit.
- Includes instructions in English, Spanish and French.

CarGo Thermosteel Thermosteel Exhaust System Repair Kit CCM 18022KTRI

**Specialty Maintenance**

- Seals holes and leaks in mufflers, tailpipes and around joints, makes new installations more secure and resists temperatures to 2,000°F (1,000°C).

Permatex Muffler & Tailpipe Sealer (3 oz.) PER 80335

- Extra Fine Graphite AGS Extra Fine Graphite is the finest all-purpose, dry powder lubricant which is both odorless and non-toxic.
- Use to guard against sticking, wear, and corrosion.
- Can be used year-round on all types of material, including metal, wood, plastic, and rubber.
- Suggested applications: precision instruments, locks, hinges, tools, guns, fishing reels, camera shutters, bicycles, office machines, toys, and other fine mechanisms.

American Grease Stick Co. Graphite Extra Fine Powdered, Tube (0.21 oz. Card) AGS ME-2

PERMATEX REARVIEW MIRROR ADHESIVE KIT

- OEM approved.
- This complete kit contains everything required for making professional-quality repairs in just minutes.
- Features state-of-the-art components and easy-to-follow instructions with photographs.
- The 2-part adhesive permanently bonds mirror buttons to windshields.
- Achieves handling strength in seconds, and mirror mounting strength in as little as 30 minutes. ODC free. Not designed for plastic buttons.

**Permex Rearview Mirror Adhesive Kit** PER 9102

3M HIGH BOND REARVIEW MIRROR ADHESIVE (0.02 fl oz.) MMM 8749

- Holds up well in high temperatures and humid environments
- Two-part structural acrylic system designed to mount rear view mirrors
- Resistant to moisture, chemicals, vibration, and impact
- Simple application procedure, easy to apply

**Permex Complete Rear Window Defogger Repair Kit** PER 9117

SPECIALTY MAINTENANCE

- Complete kit contains everything required for making professional-quality repairs in just minutes.
- State-of-the-art components and easy-to-follow instructions with photographs.
- Provides a high-quality repair for damaged rear window defogger grids and tabs.
- Quick Grid is the result of a joint research project with the General Motors Research Center.

**Permex Complete Rear Window Defogger Repair Kit** PER 9117

SPECIALTY MAINTENANCE

CARQUEST® Auto Parts Service Lines Catalog

SPECIALLY MAINTENANCE

VINYL/LEATHER REPAIR

- A complete professional kit with plug-in electric heat iron to make pro-style repairs.
- Contains professional electric heat tool, 7 color compounds, clear vinyl adhesive and filler, grain pattern paper, metal spatula and plastic dashboard hardening powder.

**Permex Pro-Style Vinyl and Leather Repair Kit** PER 81781

3M LEATHER AND VINYL REPAIR KIT

- Use the 3M™ Leather and Vinyl Repair Kit to repair leather and vinyl tears, burns, and cuts.
- The 3M Leather and Vinyl Repair Kit patches and repairs upholstery damages such as tears, burns, and cuts in vinyl and leather.
- A variety of colors and grain papers designed to match surrounding materials makes repairs blend in with existing vinyl or leather.
- A color matching guide helps determine the correct color to match the damaged surface.
- With the complete directions that are included in the kit, you can achieve a quality result without the cost or expertise of a professional.

**3M Leather and Vinyl Repair Kit** MMM 8579

SPECIALTY MAINTENANCE

WINDSHIELD DEFOGGER REPAIR KITS

- Complete kit contains everything required for making professional-quality repairs in just minutes.
- State-of-the-art components and easy-to-follow instructions with photographs.
- Provides a high-quality repair for damaged rear window defogger grids and tabs.
